OFFICE OF

NUMISMATIST,  
NEW YORK, U. S. A.

Cable Address: LAMA.

Dear Sir:

The offering this month seems to me to be about as diversified a lot of coins etc., as could be found in a day's journey or a trip through an old curiosity shop in some European Capital. It is thrown together, hodge podge, helter skelter, with no attempt at classification or arrangement, and thereby hangs a tale. The Numismatic Crank whose collection it is, said to me one day. "Adams, I rather like your catalogue, it is gotten up neatly; but why this eternal grouping of countries and kinds by themselves? Why not jumble them all together? It may be interesting to the person who collects only one special line, to find them all nicely huddled together; he can sit comfortably down and bid and bid himself to death, while other people who have no interest in his line, must sit and twiddle their thumbs while the coins are disposed of." "But" said I, "people whose collections I sell, wont have it any other way, so what am I to do?" "Find some who don't," said my friend, sharply. "Where is he?" said I. "I am that man," said he; so to cut a long story short, here is offered the collection of Mr. N. Crank, jumbled together just as he wanted it to be. Knowing these facts, don't be surprised if you should find the Goddess of Liberty hugging close to a Chinese Dragon or an elephant feeding on a "haymarked" German Eagle. It behooves therefore that everybody should study the catalogue carefully, for *sandwiched between two mediocrities, you may find an aristocracy*. At any rate it is all nice stuff and well worthy your attention, whether you collect the coins of "Far Cathay" or those of our own glorious country.

Very truly

GEOFFREY CHARLTON ADAMS.
